Dear Mr. Tarnoff:

Re: Application for Participant Assistance
Attendance at Utility Resource Expenditures Workshop

With reference to your attendance at the March 25, 1996 Utility Resource Expenditures Workshop held in Vancouver, the Commission has approved the reimbursement of your costs in the amount of \$216.00.

With regard to your claim for travel time, the Commission has not previously paid for this item and therefore has reduced your participation claim down to one day. Your claim of \$78.00 for round-trip bus fare from Hedley has also been disallowed at this time due to the lack of a receipt. Should you provide your receipt in the near future, the Commission will reconsider your cost award.

A cheque will be sent from Victoria and charged to the Commission's Participant Assistance Account No. 8205.

Yours truly,
