CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

WHEREAS:

- A. On May 21, 2002, UtiliCorp Networks Canada (British Columbia) Ltd. (“UNC”) applied for a Certificate of Public Convenience and Necessity (“CPCN”) to secure a right-of-way for a section of UNC Transmission Line No. 44 within the boundaries of the Osoyoos Indian Reserve No. 1 between Oliver and Osoyoos, pursuant to Sections 45 and 46 of the Utilities Commission Act (“the Act”); and
- B. The requirement to secure the Line No. 44 right-of-way was identified in the Preliminary 2000-2002 Revenue Requirements Application dated November 8, 1999. A negotiated agreement between UNC and the Osoyoos Indian Band (“the Band”) was anticipated during the 2000-2002 test period. The negotiated settlement as appended to B.C. Utilities Commission (“the Commission”) Order No. G-134-99 approved the project as an extraordinary capital expenditure, subject to Commission approval of a CPCN application; and
- C. The cost of securing the right-of-way is \$420,000 with terms set out in a February 28, 2002 Letter Agreement between UNC and the Band, which was executed by the Band on April 17, 2002. The Letter Agreement’s Schedule A amends the original March 25, 1970 Agreement with respect to the Utility’s obligations to supply electric power on the Osoyoos Indian Reserve No. 1; and
- D. UNC estimates the total cost of this extraordinary capital expenditure, including overheads, will be approximately \$500,000; and
