Dear Mr. Craig:

Re: British Columbia Hydro and Power Authority
Collection of Surcharge under Tariff Supplement No. 31

The Commission is in receipt of B.C. Hydro's March 7, 2003 response to your January 25, 2003 complaint, a copy of which is enclosed. B.C. Hydro has confirmed that all customers taking service from the Field extension are being charged the 9.00¢/kWh surcharge pursuant to Electric Tariff Supplement No. 31.

The Commission determines that B.C. Hydro has appropriately applied its Electric Tariff to Strata Plan NES 2148 and therefore dismisses your complaint.

Yours truly,
