**IN THE MATTER OF**  
the Utilities Commission Act, R.S.B.C. 1996, Chapter 473

and

Terasen Gas Inc.

Application for the Approval of a Two-Year Extension  
of the 2004-2007 Multi-Year Performance-Based Rate Plan for 2008-2009

**BEFORE:**           L.F. Kelsey, Commissioner  
                          L.A. Zaozirny, Commissioner           March 22, 2007

**O R D E R**

**WHEREAS:**

- A. Commission Order No. G-51-03 approved for Terasen Gas Inc. ("Terasen Gas", "the Company"), the Settlement Agreement for a 2004-2007 Multi-Year Performance-Based Rate Plan (the "Settlement"); and
- B. The terms of the Settlement required Terasen Gas to hold a Mid-Term Assessment Review to provide an expanded annual review and information on its current and future year activities prior to the end of the third year (2006) of the Settlement; and
- C. Commission Order No. G-121-06 established the regulatory timetable including a 2006 Annual Review and Mid-Term Assessment Review on November 15, 2006 (the "Workshop"). During the Workshop, the Company discussed the possibility of an application for the extension of the current Settlement; and
- D. On January 19, 2007, Terasen Gas filed its Application for the Approval of a Two-Year Extension of the Settlement Agreement for a 2004-2007 Multi-Year Performance-Based Rate Plan Settlement for 2008-2009 (the "Application"); and
- E. In its Application, Terasen Gas states that it engaged in stakeholder consultation during December 2006 and January 2007 with representatives from the following stakeholder groups:
  - British Columbia Hydro and Power Authority ("BC Hydro");
  - Ministry of Energy of Mines & Petroleum Resources ("MEMPR");
  - Inland Industrial Group;
  - British Columbia Public Interest Advocacy Centre on behalf of the British Columbia Old Age Pensioners' Organization et al. ("BCOAPO");
  - Avista Energy Canada Ltd.;
  - Elk Valley Coal Corporation;
  - BC Health Services;

**BRITISH COLUMBIA  
UTILITIES COMMISSION**

**ORDER  
NUMBER** G-33-07

- Commercial Energy Consumers Association of British Columbia;
  - Lower Mainland Large Gas Users Association; and
  - IGI Resources Inc., a BP Energy Company (“IGI Resources”)
- F. Appendix A to the Application sets out the proposed terms of a two-year extension and are the same as those reviewed with stakeholders during consultation. The proposed terms are mostly extensions of the terms in the current Settlement and contain similar formula, mechanisms, methodologies and wording; and
- G. The Application includes a stakeholder letter from MEMPR dated December 21, 2006. MEMPR states that it would support a two-year extension period to the Settlement; and
- H. In a letter dated January 22, 2007, BC Hydro stated that it was willing to support a two-year extension of the Settlement with terms as per the Terasen Gas draft term sheets discussed at the stakeholder meeting; and
- I. The Commission by Order No. G-8-07 established a written regulatory process for review of the Application; and
- J. MEMPR in its Comments of February 5, 2007 support a two-year extension period to the Settlement as indicated in the letter dated December 21, 2006; and
- K. On February 9, 2007 BCOAPO filed its Comments. BCOAPO is supportive of an extension of the Settlement Agreement for a 2004-2007 Multi-Year Performance-Based Rate Plan for 2008-2009 and provided a few additional comments including service quality indicators (“SQI’s”); and
- L. On February 2, 2007 IGI Resources filed its Comments. IGI Resources support a two-year extension of the Settlement with a single qualification. IGI Resources states that the extension of the Settlement should be accompanied by a submission from Terasen Gas stating that during the term of the extension the Company will not ask the Commission for reconsideration of its equity thickness or return on equity (“ROE”) values; and
- M. On February 16, 2007 Terasen Gas filed its Reply Comments. The Company’s response to BCOAPO notes that the SQI’s would be addressed as part of the next revenue requirements proceeding as suggested by BCOAPO. In response to IGI Resources, Terasen Gas states that it has no current plans to make an application regarding its equity thickness or ROE. Terasen Gas also submits that the qualifications suggested by IGI Resources place an unreasonable restriction on the Company and would be an inappropriate precedent; and

<b>BRITISH COLUMBIA UTILITIES COMMISSION</b>	
<b>ORDER NUMBER</b>	G-33-07

- N. On March 1, 2007 the Commission received an application from Fortis Inc. ("Fortis") applying for the approval of the Acquisition of the Issued and Outstanding Shares of Terasen Inc. (the "Acquisition"). In a letter dated March 1, 2007, the Commission offered Intervenors an opportunity to comment on the Application in light of the proposed Acquisition. In the letters of Comment submitted by the MEMPR, BC Hydro and BCOAPO there were no concerns regarding the Acquisition in relation to the Application. The Company, in its Reply Comments dated March 16, 2007, is of the view that the two-year extension of the Settlement is warranted and is in the best interests of the Company and its customers; and
- O. The Commission has reviewed the Application, Comments, and Reply Comments received and considers that approval is warranted.

**NOW** the Commission orders as follows:

1. The Commission approves for Terasen Gas the two-year extension of the Settlement Agreement for a 2004-2007 Multi-Year Performance-Based Rate Plan for 2008 and 2009 as outlined in Appendix A of the Application and also attached as Appendix A to this Order.

**DATED** at the City of Vancouver, in the Province of British Columbia, this 23<sup>rd</sup> day of March 2007.

BY ORDER

## Two-Year TGI Extension

<b>Settlement Items</b>	<b>2004-2007 PBR Negotiated Settlement Agreement ("Current TGI Settlement")</b>	<b>2008-2009 Extension Period</b>
<b>Term</b>  Terasen Gas proposes a five year term for the PBR Plan	A four year term from 2004 to 2007 was accepted.	A two-year period commencing January 1, 2008 and ending in December 31, 2009.
<b>Productivity</b>  Page C-25 proposes a results-based adjustment factor of 0.75% each year from 2004-2008 for O&M and Net Gas Plant in Service.	The adjustment factor will be 50% of CPI for 2004 and 2005, and 66% of CPI for 2006 and 2007. See O&M and Capital Additions Forecast sections below.	Continue use of mechanism without change from Current TGI Settlement. The productivity factor of 66% of CPI will be used for both 2008 and 2009, consistent with factor used in 2006 and 2007.
<b>Inflation</b>  CPI (BC) will be used to adjust the controllable expenses as described on page C-10. Rates will be set prospectively, and as in the 1998 plan, the rates will not be modified to reflect actual CPI (BC). CPI (BC) is forecast as 1.8% for 2004 and 2% for 2005-2008 in Section H, Tab 3, page 2.2. The Annual Review will update the inflation forecast for the upcoming year as described in Section H, Tab 9, p. 1 and BCUC IR10.1, but there will be no true up to actual CPI(BC). Alternative inflation indices were discussed in BCUC IR 10.2 and Elk Valley Coal Corporation IR#2, Questions 2-4.	CPI (BC) accepted as filed.	Continue use of mechanism without change from Current TGI Settlement.

Settlement Items	2004-2007 PBR Negotiated Settlement Agreement (“Current TGI Settlement”)	2008-2009 Extension Period
<b>Customer Growth</b> <p>The Annual Review will update the customer count for the actual number of customers at the start of the year and forecast customer growth for the upcoming year as described in page F1 and BCUC IR 9.1.</p>	<p>Accepted as filed-same as 1998-2001 PBR.</p>	<p>Continue use of methodologies without change from Current TGI Settlement.</p>
<b>Revenues</b> <p>Revenue categories identified on pages C-13 to C-14 include amounts received from sale and delivery of gas, transportation service, revenues received under tariff supplements, \$85 from application for service and revenues from account transfers. Revenues will be forecast each year and the company is at risk within the year for variances in industrial revenues, customer additions, applications for service and account transfers. Throughput variances for residential and commercial customers in rates 1, 2 and 3/23 will be subject to RSAM. Variances in Burrard Thermal and SCP revenues will be deferred and amortized.</p> <p>Pages F-1 to F-8 state that the forecast process has a customer additions forecast, an average use per account forecast and an industrial forecast. A 2003 industrial survey will be presented at the 2003 Annual Review. The residential use per account of 108 GJ was used for 2003 and in the Application for 2004. The use per account for rates 1, 2, 3 and 23 will be reforecast at the 2003 and subsequent Annual Reviews.</p> <p>Other revenues of Centra Gas (PCEC) Wheeling Agreement and SCP third party revenues will be forecast each year at the Annual Review. Late payment revenue will be adjusted to the same formula as O&amp;M expenses.</p> <p>Page C-14 indicates that load-building programs will be brought forward either at or before Annual Reviews. These are separate from DSM programs as confirmed in BCUC IR 7.2</p>	<p>Forecast process is acceptable. Earnings variances relating to at risk revenue items will be included in the Earnings Sharing Mechanism.</p>	<p>Continue use of methodologies without change from Current TGI Settlement.</p> <p>At-risk items unchanged.</p> <p>RSAM continues unchanged.</p>

Settlement Items	2004-2007 PBR Negotiated Settlement Agreement ("Current TGI Settlement")	2008-2009 Extension Period
<b>Gas Cost</b>	<p>Accepted as Filed</p> <p>Section H, Tab 8, p. 1 states that the cost of gas used under the PBR will be based on the approved unit gas costs prevailing at the time the volume and revenue forecast is made. Page C-19 proposes the continuation of GCRA and GSMIP.</p>	<p>Continue use of methodologies without change from Current TGI Settlement.</p> <p>Continuation of CCRA and MCRA Accounts (which replaced the GCRA) without change from Current TGI Settlement.</p>
<b>O&amp;M</b>	<p>Accepted for 2004 – 2007 with adjustment factors of 50% CPI in 2004 and 2005, and 66% CPI in 2006 and 2007.</p> <p>Beginning in 2004, ongoing pipeline integrity costs are to be expensed as O&amp;M and a levelized adjustment will be made to the base O&amp;M in the formula for years 2004-2007. Facilities retrofits will continue to be treated as CPCNs throughout the term.</p> <p>See also Capital Additions Forecast.</p> <p>Vehicle and Coastal Facilities Lease are added (not part of O&amp;M formula)</p> <p>Pipeline Integrity Costs-if a planned capital expenditure is to be funded through O&amp;M then page C-19 proposes that the allowed O&amp;M be increased.</p>	

<b>Settlement Items</b>	<b>2004-2007 PBR Negotiated Settlement Agreement ("Current TGI Settlement")</b>	<b>2008-2009 Extension Period</b>	
<b>Overhead</b>	<p>Page G-5 proposes a 16% overhead per year from 2004-2008, calculated consistent with the response to BCUC IR 11.1 and Section H Tab 9 Page 2 of the Application.</p>	<p>Accepted as Filed except that the amount of gross O&amp;M not subject to Overheads Capitalized will be escalated by the O&amp;M formula. The amount not subject to overhead capitalization is the sum of \$19,373,000 (Section H, Tab 9, Page 2) and the leverized incremental pipeline integrity O&amp;M expenses of \$5,505,000.</p>	<p>Continue to use a 16% overheads capitalization rate without change from Current TGI Settlement.</p>
<b>Net Gas Plant in Service Formula</b>	<p>The Net Gas Plant in Service formula approach was not accepted.</p> <p>See Capital Additions Forecast.</p>	<p>The Net Gas Plant in Service formula approach was not accepted.</p> <p>See Capital Additions Forecast.</p>	<p>The Net Gas Plant in Service Formula was not accepted as part of the Current TGI Settlement.</p>
<b>Capital Additions Forecast</b>	<p>Section H, Tab 3, p. 2 proposes that Mid-year NGPiS for 2004-2008 be determined by a formula-based approach that starts from a base of the 2003 Mid-year NGPiS escalated by growth in customers and inflation less an adjustment factor of 0.75%.</p> <p>The NGPiS formula on Section H, Tab 3, p. 2 is:</p> $\text{Current Mid-year NGPiS} = (\text{Prior Mid-year NGPiS}/\text{customer}) \times (\text{Forecast Average Number of Customers in Current Year}) \times (1+\text{Inflation}-0.75\% \text{ adjustment factor})$ <p>2003 Mid-year NGPiS is based on actual 2003 opening NGPiS and the projected 2003 year end NGPiS from the fall 2003 Annual Review.</p> <p>Formula-based values of NGPiS, accumulated depreciation, CIAOC, net plant additions are not rebased during the five year PBR.</p>	<p>Base Capital Expenditures.</p> <p>As per BCUC IR 4.6, use formulas based on customer additions and average number of customers. Using</p>	<p>Base Capital Expenditures</p> <p>Continue use of formula without change from</p>

Settlement Items proposal.	2004-2007 PBR Negotiated Settlement Agreement ("Current TGI Settlement") (1+CPI (BC)-Adjustment Factor).	2008-2009 Extension Period <u>Phase-Out</u> Continuation without change from the Current TGI Settlement. Phase- Out to commence with expiration of settlement extension term.  Base capital expenditure amounts will not be rebased to actual amounts during the term. For rate setting in subsequent years the formula base capital expenditures from the prior years will be adjusted for projected customer counts and trued up for actual customer counts as this information becomes known.  The cumulative difference over the four-year term between the trued-up formula based capital expenditures and actual base capital expenditures will be subject to a phase-out of the benefits of 2/3 in the year after the term and 1/3 in the second year after. An example of the capital true-up process and capital benefits end-of-term phase-out is attached as Appendix 3.	<u>Capitalized Overhead</u>  16% of gross O&M calculated by formula, consistent with the response to BCUC IR 11.1 and Section H Tab 9 Page 2 of the Application. The leveled O&M increase for ongoing pipeline integrity program expenditures will not be subject to overheads capitalized.	<u>CPCN Additions</u>  Continue use of \$5 million threshold for CPCN's without change from Current TGI Settlement.  CPCN expenditures are excluded from the capital formula. Except in very unusual circumstances, CPCNs will not be filed for projects below \$5 million.  Transmission Pipeline Integrity CPCNs will be limited to retrofits, which BCUC IR 23.2.1 (2003 Revenue Requirement Application) showed as \$2.8 million in 2004 and \$3.0 million in 2005. CPCN expenditures to be included for rate setting purposes will be only for those projects which have been approved by the
-------------------------------	--	---	--	--

<b>Settlement Items</b>	<b>2004-2007 PBR Negotiated Settlement Agreement (“Current TGI Settlement”)</b>	<b>2008-2009 Extension Period</b>		
<b>15% Plant Additions Benefit Factor</b>	<p>Accepted for application only to base capital additions for the end-of-term capital benefits phase-out except that the factor should be 14%.</p> <p>An example is provided in BCUC IR 1.9.2 showing a levelized saving of 13.21%. The 15% factor provides for the possibility of plant accounts with higher depreciation rates or higher cost of capital in the future.</p>	<p>Accepted for application only to base capital additions for the end-of-term capital benefits phase-out except that the factor should be 14%.</p> <p>An example is provided in BCUC IR 1.9.2 showing a levelized saving of 13.21%. The 15% factor provides for the possibility of plant accounts with higher depreciation rates or higher cost of capital in the future.</p>	<p>Continue to use current depreciation rates without change from Current TGI Settlement.</p>	<p>Continue use of deferral account without change from Current TGI Settlement.</p>
<b>Depreciation Rates</b>				
<b>Restructuring Deferral Account</b>				

<b>Settlement Items</b>	<b>2004-2007 PBR Negotiated Settlement Agreement (“Current TGI Settlement”)</b>	<b>2008-2009 Extension Period</b>
<p>Company confirmed that if it incurs restructuring costs and efficiencies do not materialize then the restructuring costs are borne by the Company.</p> <p>In BCUC IR 1.11.5 the Company proposes a non-rate base deferral account. In BCOAPO IR 4.1 the Company proposes that the revenue requirements would not be increased by the amount of the deferral account.</p> <p>In LMLGUA IR 4.1 the Company anticipates that a definition of what is to be included in restructuring costs would be included in the negotiated settlement document. The Company proposed items to be included are in BCUC IR 1.11.1.</p> <p>On page C-15 and in BCUC IR 1.11.2 and BCOAPO IR 4.1 and 4.2 the Company states that positive variances from the allowed ROE will first be used to offset the costs included in the restructuring deferral account prior to sharing.</p>	<p>Net restructuring costs incurred by the Company between July 1, 2003 and December 31, 2003 will be captured in a deferral account, to be recovered as a 2004 expense. Net restructuring costs refers to the netting off of savings the Company realizes in 2003 from restructuring activities. The deferral account will be non-interest bearing non-rate base.</p>	<p>The FTEI was not accepted as part of the Current TGI Settlement. The capital benefits phase-out will continue with the phase-out to commence with expiration of the settlement extension term.</p>
<p><b>Full Term Efficiency Incentive</b></p>	<p>Page C-16 and Appendix C-A-2, pp. 1-4 describe FTEI as motivating new efficiencies and provides for retaining savings for five years after the investment is made to repay the cost of the initial investment before savings are shared with customers.</p>	<p>The FTEI is not accepted. However, there will be a capital benefits phase-out at the end of term as described in the Capital Additions Forecast section above.</p>

Settlement Items	2004-2007 PBR Negotiated Settlement Agreement ("Current TGI Settlement")	2008-2009 Extension Period
<b>Sharing Mechanism</b>	<p>The 50/50 sharing mechanism is accepted based on the difference between the allowed and actual ROE (net of G\$MIP, DSM Incentive, load building and incentives for partially controllable items) using the common equity component of the actual rate base.</p> <p>See Trigger Mechanism.</p> <p>Appendix C-A-2, pp. 1-4 describes and provides an example of the sharing mechanism for savings in net O&amp;M, the gross plant additions benefit and industrial revenue variances. The allocation of savings to the Restructuring Deferral Account and the FTEI is also described.</p> <p>Pages C-15 and C-16 propose that sharing commence on January 1, 2004 with 50/50 sharing of earnings above or below the allowed ROE, net of G\$MIP, the DSM Achievement Incentive and other incentives. The customers' portion of the sharing will be projected at Annual Reviews and provided to customers by a rider in the following year. The customers' actual portion of sharing shall be determined after year end and variances from projections provided to customers by a rider in the following year. Sustained (two-year average) return that is 200 basis points above or below the allowed ROE triggers an Off-Ramp review.</p>	<p>Continue use of mechanism without change from Current TGI Settlement.</p>
<b>Deferred Charges and Amortization</b>	<p>Pages G-6 to G-7 seeks continuation for 2004 to 2008 of:</p> <ul style="list-style-type: none"> <li>• Deferred interest account to collect interest expense variances from forecast short-term debt rates and from forecast long term debt rates, principle, timing of issues and long term debt issue costs.</li> </ul> <p>DSM incentive grants for deferral of grants of up to \$1.5 million per year. BCUC IR 7.2 explained that the deferral account would only be used to collect incentive payments and rebates to customers. Costs associated with advertising (including awareness programs), program promotion, program design, administration, research and evaluation would be O&amp;M expenses.</p>	<p>Continue use of deferral accounts without change from Current TGI Settlement.</p> <p>Proposed deferral accounts and amortization periods are acceptable.</p> <p>A DSM assessment report should be provided at the Annual Review of proposed programs for the upcoming year and an analysis of existing programs.</p>

Settlement Items	2004-2007 PBR Negotiated Settlement Agreement ("Current TGI Settlement")	2008-2009 Extension Period
<p>Additional requests:</p> <ul style="list-style-type: none"> <li>• Amortize over 5 years commencing in 2005, the deferred 3<sup>rd</sup> party revenues arising from the cancellation of PG&amp;E contract net of any mitigation revenues received.</li> <li>• Deferral of variances in pension expense and insurance expense from forecast.</li> <li>• Deferral of the costs of the PBR Application and amortize over 5 years.</li> </ul> <p>Section H, Tab 3, pp. 6.1 to 6.6 requests the following treatment:</p> <ul style="list-style-type: none"> <li>• Deferred interest is amortized over three years.</li> <li>• Market Rebate Incentive-Water Heater Grants are continued until final year of amortization in 2004.</li> <li>• NGV Conversion Grants with continued additions as approved by Orders G-98-99 and G-7-03 and five year amortization.</li> <li>• 2003 Revenue Requirement with five year amortization.</li> <li>• 2004-2008 Revenue Requirements with accumulation of costs and five year amortization.</li> <li>• DSM program to continue with expenditures of \$1.5 million per year for 2004-2008 and three year amortization.</li> <li>• DSM-DRIA to continue with three year amortization.</li> <li>• Property Tax Deferral with continued accumulation of variances between forecast and actual with three year amortization.</li> <li>• GCRA and GCRA Interest with continued recording of interest on GCRA variances from forecast. Amortization in accordance with Orders No. G-124-00, G-134-01 and G19-03.</li> </ul>		

<b>Settlement Items</b>	<b>2004-2007 PBR Negotiated Settlement Agreement (“Current TGI Settlement”)</b>	<b>2008-2009 Extension Period</b>
<ul style="list-style-type: none"> <li>• RSAM will continue to accumulate differences between forecast and actual use rate of RSAM customers per year from 2004-2008. Any RSAM additions are amortized over three years. Variances between forecast and actual balances will accumulate short-term finance costs.</li> <li>• BC Hydro Services Agreement Costs with continuation of two year amortization by 2003 Decision and Order G-7-03.</li> <li>• Coastal Facilities with continuation of five year amortization by Order C-14-98. With deferral of costs approved by Order C-14-98 and two year amortization by 2003 Decision and Order G-7-03.</li> <li>• ABC-T Project Requirements Phase with two year continued amortization commencing in 2003 by Order G-24-02.</li> <li>• Burner Tip Service with continued one year amortization by 2003 Decision and Order G-7-03.</li> <li>• Earnings Sharing Mechanism as an amortization of the January to February 2003 refund over the remaining March to December 2003 period by 2003 Decision and Order G-7-03.</li> <li>• Salmon Arm Reinforcement with continued amortization by Order G-26-00. Final year of amortization in 2003.</li> <li>• NGV Compression Equipment Recovery with continued 10 year amortization by Order G-143-99.</li> <li>• 2001 Rate Design with continued amortization over three years starting in 2002 by Order G-116-01.</li> <li>• Overheads Change-Income Tax Refund and CIAOC Software Tax Savings/OH Change with continued amortization over five years by 2003 Decision and Order G-7-03.</li> <li>• Other Post Employment Benefits with continued regulatory</li> </ul>		

<b>Settlement Items</b>	<b>2004-2007 PBR Negotiated Settlement Agreement (“Current TGI Settlement”)</b>	<b>2008-2009 Extension Period</b>
<p>accounting treatment by Order G-7-03.</p> <ul style="list-style-type: none"> <li>• Deferred 2000 SCP Cost of Service with amortization over five years by Orders G-135-99 and G-7-03 and 2003 Decision.</li> <li>• SCP Net Mitigation Revenue and SCP West to East Transmission with continued five year amortization by Orders G-124-00, G-123-01, G-7-03 and 2003 Decision.</li> <li>• SCP PG&amp;E Contract Cancellation with forecast lost revenue per Letter L-48-02 and requested amortization over five years commencing in 2005.</li> <li>• CCT Deferral with continuation of five year amortization starting in 2003 by 2003 Decision and Order G-7-03 of deferred credit recorded by Orders G-85-97 and G-48-00.</li> <li>• CCT Assessment with amortization period of three years by 2003 Decision and Order G-7-03.</li> </ul>		<p>Continue determinations of working capital without change from Current TGI Settlement.</p>
<p><b>Working Capital</b></p> <p>Section H, Tab 5, p. 1 proposes that Gas in Storage and Transmission Linepack and All Other Working Capital will have a revised forecast at the Annual Review. Cash Working Capital will use lead/lag methodology from the 1992 Decision with changes from the 2003 approved lead or lag days currently in rates brought forward each year as necessary.</p> <p>In BCUC IR 11.2 the Company discusses using a formula to calculate cash working capital based on the mid-year NGPiS.</p>		

Settlement Items	2004-2007 PBR Negotiated Settlement Agreement ("Current TGI Settlement")	2008-2009 Extension Period
<b>Finance, Accounting and Tax Issues</b>  Pages G-1 to G-6 propose: <ul style="list-style-type: none"> <li>• New long term debt issues of \$850 million for 2004-2008 with an expected rate of 7%. A 2003 long-term debt issue of \$150 million for 2003. Debt expense to be reforecast at each Annual Review as described on page C-12.</li> <li>• Short term debt rates of 4% for 2004 and 5% for 2005-2008.</li> <li>• Debt expense to be reforecast at each Annual Review.</li> <li>• Any changes in GAAP would be treated as flowthrough items.</li> <li>• A report will be filed on the separation of BC Gas Inc. pensions, salaries and expenses from BCGUL. The Corporate Centre is expected to have 40-45 employees. Forecast O&amp;M is consistent with the 2003 Decision and the amounts charged by the corporate Centre to BCGUL will be consistent with the 2003 Decision.</li> </ul>	Accepted, but any changes in regulatory treatment resulting from changes in GAAP will require Commission approval.  Continue without change from Current TGI Settlement.  Any changes in regulatory treatment resulting from changes in GAAP will require Commission approval.	Continue without change from Current TGI Settlement.
<b>Regulatory Accounting Methodologies</b>  Page C-19 proposes the continuation of GCRA/RSAM accounts, taxes payable method for income taxes, regulatory treatment for CPCNs from the 1998-2001 PBR Plan, accounting for certain assets and rate stabilization accounts on a net of tax basis, accounting for property, plant and equipment to include overhead and AFUDC. Approved depreciation rates are used. The current accounting treatment of property, plant and equipment retirements will continue.	Accepted as Filed.	

Settlement Items	2004-2007 PBR Negotiated Settlement Agreement ("Current TGI Settlement")	2008-2009 Extension Period	
<b>Taxes</b>	Accepted as Filed.	Continue without change from Current TGI Settlement.	
<b>Exogenous Factors</b>	<p>Accept the arguments of Terasen Gas and accept same practice as 1998-2001 PBR.</p> <p>In BCUC IR 15, the Company lists the flow through items and exogenous factors and discusses the merits of fixing an expense and allowing the item to be "at risk". The Company believes that partially controllable items should be evaluated on an item by item basis and considered in the context of the overall PBR.</p>	<p>Continue use of mechanism without change from Current TGI Settlement.</p> <p>Exogenous factors that have been approved by the Commission throughout the term of the Current TGI Settlement will continue for the extension period.</p>	<p>Continue use of Service Quality Indicators without change from Current TGI</p>
<b>Service Quality Indicators</b>	Refer to the SQI section in the Annual Review document (Appendix 2)		

<b>Settlement Items</b> maintained throughout the PBR period.	<b>2004-2007 PBR Negotiated Settlement Agreement ("Current TGI Settlement")</b>	<b>2008-2009 Extension Period</b> Settlement.
<u>Proposed SQIs</u> Response Time to Site for Emergency Calls % of Responses within 30 Seconds -Emergency % of Responses within 30 Seconds-Non-Emerg Trans System Annual Reportable Incidents % of Customer Bills Meeting Performance Criteria Meter Exchange Appointment Activity	<u>Benchmark</u> 21.1 minutes 95% 75% 2 Reportable/yr Score 5.0 or less 92.2% met <u>Directional Indicators</u> Number of Third Party Damages Leaks per Kilometre of Distribution Mains	<u>Three Year Average</u> 1,219 0.0041 BCUC IR 1.10.7 states whether or not the achievement level for SQIs should be used to qualify the Company for an incentive should be dealt with similar to the 1998-2001 PBR. Page 13 of that PBR stated that SQIs will be reviewed at Annual Reviews and participants can make submissions to the Commission that a deviation from a benchmark is significant enough that it should limit incentive payments to the Utility.
<b>Trigger Mechanism</b>	Page C-18 proposes that a full regulatory review is triggered if the two-year average achieved ROE after sharing exceeds or drops below the allowed ROE by 200 basis points or if there is a serious degradation of Service Quality Indicators. LMLGU IR 21 clarified that the two-year average refers to two consecutive years and in IR 32 the Company expressed the belief that "serious degradation" cannot be defined in a manner that would foresee all circumstances.	Continue use of mechanism without change from Current TGI Settlement.

<b>Settlement Items</b>	<b>2004-2007 PBR Negotiated Settlement Agreement (“Current TGI Settlement”)</b>	<b>2008-2009 Extension Period</b>		
<b>Annual Review</b>  The process for the Annual Review and rate setting for the following year is described in BCUC IR 14.1 as being similar to the 1998-2001 PBR as adjusted for 2004-2008 PBR Plan formulas, SQIs, plant additions.	Expanded 1998-2001 PBR Annual Review process is acceptable. See attached.	Continue use of Annual Review without change from Current TGI Settlement.		
<b>No Surprises</b>	Terasen Gas is to advise all parties of any major changes planned for the Utility and nothing in this settlement provides Terasen Gas with any approval to change its business practices to the detriment of customers. For example, the spin off of significant operations, such as those outsourced to CustomerWorks would require disclosure prior to undertaking.	Continue adherence to “No Surprises” clause/spirit without change from Current TGI Settlement.		
<b>Mid-Term Assessment Review</b>	The proposal is acceptable.	The Mid-Term Assessment review was held in the third year of the Current TGI Settlement (2006).	Not necessary for extension term.	
<b>Customer Advisory Council (CAC)</b>  (This item was not addressed in the Application)	A customer advisory council will be established which meets twice yearly to deal with any customer issues that have arisen during the year. The purpose of the CAC will be to provide a non-binding forum for customer groups and the Company to communicate and deal with customers' concerns constructively and proactively. One of the meetings will be held in	Continue the Customer Advisory Council without change from Current TGI Settlement.		

<b>Settlement Items</b>	<b>2004-2007 PBR Negotiated Settlement Agreement (“Current TGI Settlement”)</b>	<b>2008-2009 Extension Period</b>
	<p>advance of the Annual Review to provide an opportunity for customers to raise issues again at the Annual Review which have not been satisfactorily resolved in the CAC process. The Company's representatives on the CAC will comprise of the President, Vice President of Marketing and Vice President of Regulatory Affairs. A record of the meetings will be kept and made available upon request.</p>	<p>Continue with same terms as in Current TGI Settlement, i.e. the terms of this settlement extension “does not preclude the Company from making an application to the Commission for a variation in its equity thickness if appropriate.”</p> <p>The equity component is consistent with the 2003 Decision and is acceptable. This does not preclude the Company from making an application to the Commission for a variation of its equity thickness if appropriate.</p> <p>Page G-1 confirms that the Company finances its assets with a mix of debt and equity following the Commission’s approved capital structure of 33% common equity and 67% debt.</p>
		<p><b>Equity Thickness</b></p> <p>Continue with same terms as in Current TGI Settlement, i.e. the terms of this settlement extension “does not preclude the Company from making an application to the Commission for a variation in its equity thickness if appropriate.”</p> <p>Also consistent with Current TGI Settlement the terms of this settlement extension does not preclude the Company from making an application to the Commission for a variation in the generic ROE mechanism and the Company’s allowed ROE.</p>

<b>Settlement Items</b>	<b>2004-2007 PBR Negotiated Settlement Agreement ("Current TGI Settlement")</b>	<b>2008-2009 Extension Period</b>
<b>Load Building</b>	<p>Company proposed incentives around load building initiatives.</p> <p>Concept of incentives for load building initiatives accepted, subject to DSM-like assessment (including net present value of expected revenues and costs) of each initiative.</p>	<p>Company may develop load building initiatives during the Term consistent with the Current TGI Settlement.</p>
<b>Other Items</b>		<p>Continue without change the property tax incentive as set out in the Current TGI Settlement.</p> <p>Consistent with the terms of the Current TGI Settlement, Company or interested parties (Intervenors/Commission staff) to bring forward any new ideas around positive incentives for partially controllable expenses to Annual Reviews.</p>
<b>Partially Controllables</b>	<p>Stakeholders expressed interest in exploring positive incentives around partially controllable expenses. The Company was also interested.</p>	

Settlement Items	2004-2007 PBR Negotiated Settlement Agreement (“Current TGI Settlement”)      2008-2009 Extension Period
<b><u>Additional Items for Extension Period</u></b>	<p><b>Comprehensive review of customer connection policies and system extension policies</b></p> <p>TGI committed, as part of its 2006 Annual Review and Mid-Term Assessment review, to undertake in 2007 a comprehensive review of its customer connection policies and system extension policies, including its MX test. An application will be made to the Commission for review and approval in 2007 taking into consideration the 2007 Energy Plan and the results of the 2007 BC Hydro Rate Design proceeding, with implementation in 2008.</p>
	<p><b>Review of DSM funding and economic tests</b></p>

<b>Settlement Items</b>	<b>2004-2007 PBR Negotiated Settlement Agreement (“Current TGI Settlement”)</b>	<b>2008-2009 Extension Period</b>
		the 2006 CPR study and the potential need for increased DSM funding and will take into consideration the anticipated Provincial 2007 Energy Plan. An application will be made to the Commission for review and approval in 2007, with implementation in 2008.
