**IN THE MATTER OF  
the Utilities Commission Act, R.S.B.C. 1996, Chapter 473**

**and**

**An Application by British Columbia Hydro and Power Authority  
For Decommissioning of the Lytton Diesel Generating Station**

**BEFORE:** L.F. Kelsey, Commissioner February 15, 2007

**O R D E R**

**WHEREAS:**

- A. The Commission by Order No. G-6-07, granted permission to British Columbia Hydro and Power Authority ("BC Hydro") to decommission its Lytton Diesel Generating Station and directed BC Hydro to submit certain filings in respect thereof, including a detailed environmental assessment, a site reclamation estimate and schedule by April 30, 2007; and
- B. As a result of the need to deploy BC Hydro line crews to repair winter 2006/07 storm damage, BC Hydro advised the Commission that the Spences Bridge to Lytton Powerline Upgrade Project was delayed with the result that completion of SBR25 F51 and the corresponding start of the decommissioning of the Lytton Generating Station is delayed; and
- C. By letter dated February 9, 2007, BC Hydro has applied for a reconsideration and variance of paragraph 2 of Commission Order No. G-6-07 and requested an Order directing BC Hydro to file the detailed environmental assessment and a site reclamation estimate and schedule for the Lytton Diesel Generating Station site by June 30, 2007; and
- D. The Commission has reviewed the BC Hydro filing and finds that it should be approved.
