Re: Pacific Northern Gas (N.E.) Ltd. – Fort St. John/Dawson Creek and Tumbler Ridge Service Areas – First Quarter 2020 Report on Gas Supply Costs

Dear Ms. Kennedy:

On March 6, 2020, Pacific Northern Gas (N.E.) Ltd. [PNG(N.E.)] filed with the British Columbia Utilities Commission (BCUC) its First Quarter 2020 Report on Gas Supply Costs and the Gas Cost Variance Account (GCVA) balances, which contained information for its Fort St. John/Dawson Creek (FSJ/DC) and Tumbler Ridge (TR) service areas (Report).

By Letters L-5-01 and L-40-11, the BCUC set out a guideline trigger mechanism and rate change methodology (Guidelines) that has generally been adopted by natural gas and propane utilities including PNG(N.E.).

For the FSJ/DC service area, PNG(N.E.) forecasts the ratio of the 12-month forecast commodity cost recovery revenue from customers using current rates to the sum of the 12-month forecast commodity supply costs and the GCVA balance at March 31, 2020 (R/C Ratio) to be 0.870. The R/C Ratio is outside the dead band range of 0.95 to 1.05 set out in the Guidelines. The total indicative gas cost and GCVA commodity rate rider for all customer classes ranges from \$0.117/GJ to \$0.289/GJ, which is inside the \$0.50/GJ threshold set out in the Guidelines. According to the Guidelines, the requirements for both rate change mechanisms must be met to trigger a rate change. PNG(N.E.) recommends that no changes to the FSJ/DC gas commodity rates and gas cost rate riders be made at this time.

For the TR service area, PNG(N.E.) forecasts the R/C Ratio to be 0.990. The R/C Ratio is within the dead band range of 0.95 to 1.05 set out in the Guidelines. The total indicative gas cost and GCVA commodity rate rider for all customer classes is \$0.209/GJ, which is inside the \$0.50/GJ threshold set out in the Guidelines. PNG(NE) recommends that no changes to the TR gas commodity rates and gas cost rate riders are made at this time.

The BCUC notes that Order G-59-19, dated March 13, 2019, approved the current gas commodity rates and GCVA commodity rate rider for the FSJ/DC and TR service areas effective April 1, 2019. By the same order, the BCUC approved the current Company Use GCVA rate rider for the FSJ/DC and TR service areas effective April 1, 2020.

The BCUC reviewed the Report considering the Guidelines and accepts PNG(N.E.)'s recommendations that no changes to the gas commodity rates and gas cost rate riders are required for both of the FSJ/DC and TR service areas. The rates established under the above noted order will remain unchanged effective April 1, 2020.

Sincerely,

Original signed by:
