**Re: Customer Choice Program – Third Party Verification Scripts**

Dear Mr. Tagle,

The British Columbia Utilities Commission (BCUC) writes regarding Summitt Energy BC LP (Summitt)'s Customer Choice third party verification (TPV) scripts received on January 14, 2022.

Background

On October 28, 2021, the BCUC, following a review of Summitt's license renewal application, issued Order A-7-21, renewing Summitt's gas license, along with various conditions.

Conditions 3.g and 3.h of Order A-7-21 state that Summitt must strictly adhere to the TPV script as outlined in Article 33 of the Code of Conduct for Gas Marketers and file updated TPV scripts with the BCUC.

Outcome

The BCUC has reviewed Summitt's TPV script(s) and accepts the enclosed version to be in compliance with the Gas Marketer's Code of Conduct and Order A-7-21.

Summitt is to utilize the approved script(s) in all TPV calls going forward or until such time that a new version of the script(s) has (have) been approved by the BCUC.

Sincerely,

*Original signed by:*

Patrick Wruck  
Commission Secretary
