(ARC) for service to its Sunrise Gas Plant, and Electric Tariff Supplement No. 105 (TS 105), between BC Hydro and Cutbank Ridge Partnership (CRP) for service to its Kiskatinaw River natural gas facilities (Application);
- B. ARC has requested an increase in Contract Demand in order to increase production at its Sunrise gas processing plant located near Progress, British Columbia;
- C. CRP has requested an increase in Contract Demand in order to increase production at its Kiskatinaw natural gas processing facilities located near the Kiskatinaw River area, in British Columbia;
- D. BC Hydro, with support from ARC and CRP, has filed for approval of TS 104 and TS 105 respectively, a supplement of ARC and CRP's existing electricity supply agreements. The tariff agreements allow each customer to increase its Contract Demand on an interim, curtailable basis until BC Hydro completes construction of a new transmission line in approximately two to three years; and
- E. The BCUC has reviewed the Application and determines that approval of TS 104 and TS 105 is warranted.

NOW THEREFORE pursuant to section 58 to 61 of the UCA, the BCUC orders as follows:

- 1. TS 104 and TS 105 are approved effective as of the date of this Order.
- 2. The BCUC will keep the Application confidential as it contains customer specific and other commercially sensitive information; and

3. BC Hydro is directed to refile TS 104 and TS 105 with the commencement date and signatures, for endorsement by the BCUC within 30 days of the issuance of this order.
