**Re: Customer Choice Program – Third Party Verification Script**

Dear Mr. Kresnyak,

The British Columbia Utilities Commission (BCUC) writes regarding Bluestream Energy Inc. (Bluestream)'s Customer Choice third party verification (TPV) script received on March 16, 2023.

Background

On October 28, 2022, the BCUC, following a review of Bluestream's license renewal application, issued order A-8-22, renewing Bluestream's license, along with various conditions.

Condition 3(g) of Order A-8-22 states that Bluestream must strictly adhere to the TPV script as outlined in Article 33 of the Code of Conduct for Gas Marketers.

Outcome

The BCUC has reviewed Bluestream's TPV script and accepts the enclosed version to be in compliance with the Gas Marketer's Code of Conduct and Order A-8-22.

Bluestream is to utilize the approved script in all TPV calls going forward or until such time that a new version of the script has been approved by the BCUC.

Sincerely,

*Original signed by:*

Sara Hardgrave  
Acting Commission Secretary
