WHEREAS:

- A. On August 21, 2024, pursuant to section 44.2 of the *Utilities Commission Act*, Pacific Northern Gas (N.E.) Ltd. (PNG(NE)) filed an application (Application) with the British Columbia Utilities Commission (BCUC) for acceptance of a schedule of anticipated capital expenditures for the Tumbler Ridge Gas Plant (TRGP) Rehabilitation Project (Project);
- B. The Project consists of the repairs to and replacement of certain equipment at the TRGP, a gas processing plant situated in PNG(NE)'s Tumbler Ridge service area and has an estimated capital cost of \$4.92 million;
- C. By Order G-251-24, dated September 26, 2024, the BCUC established a written hearing process and regulatory timetable for the review of the Project;
- D. By letter dated October 18, 2024, PNG(NE) requested a temporary suspension of the proceeding to allow PNG(NE) to evaluate a new proposal for an alternate gas supply arrangement, which could significantly impact the anticipated capital expenditures. In its letter, PNG(NE) proposes to provide an update four weeks from the date of the BCUC order pausing the proceeding;
- E. The BCUC has reviewed the PNG(NE) letter and considers that adjournment of the proceeding is warranted.

NOW THEREFORE the BCUC orders as follows:

- 1. The proceeding is adjourned.
- 2. PNG(NE) is directed to provide an update with a recommendation on whether to resume the regulatory timetable with adjusted dates, extend the adjournment, or pursue different or additional steps, by Monday, November 18, 2024.
