- B. By Order G-301-25 dated December 15, 2025, the BCUC established the regulatory timetable for the review of the Original Application which included, among other things, CESLP supplemental information, intervener registration, one round of BCUC and intervener information requests (IRs), and final and reply arguments;
- C. On December 15, 2025, CESLP filed an errata to the Original Application with revised heating and cooling capacity charges reflecting the correction of three modelling errors and filed a corrected version of the application (Application);
- D. By Order G-7-26 dated January 19, 2026, the BCUC accepted parties as interveners in this proceeding, grouped interveners and set a question limit for Intervener IR No. 1 to CESLP;
- E. By March 4, 2026, CESLP filed responses to BCUC and Intervener IR No. 1; and
- F. The BCUC has reviewed the evidentiary record and determines that amending the regulatory timetable to allow for a second round of IRs is warranted.
